

# 4.11 The World of Bone, Cornea, and Skin Donation and Transplantation

# Burn Victims

## Assignment 1

All comprehensive burn programs offer exceptional care and a full range of services. A burn care team includes plastic surgeons, physiotherapists, occupational therapists, dietitians, pharmacists, social workers and chaplains. Choose one of the professions that appeals to you and prepare a short job profile which would include:

# Burn Victims

## Assignment 1

→ Job Profile

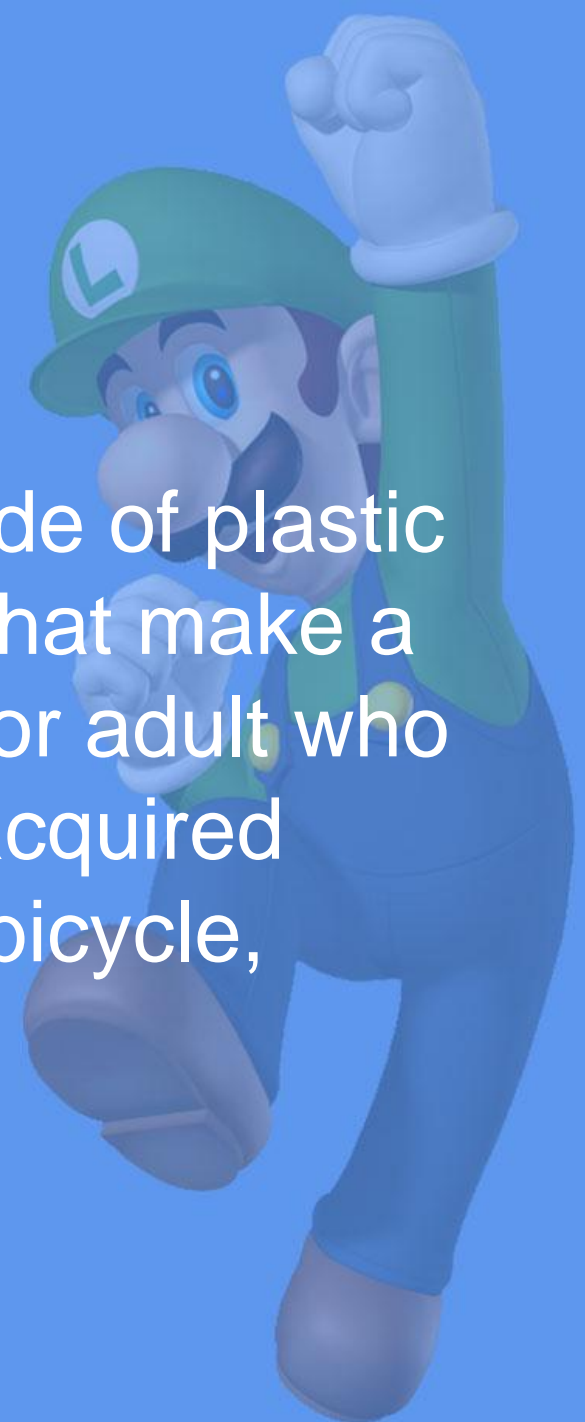

→ Description of the key responsibilities you would assume as a professional involved with a patients recuperation

# Burn Victims

## Assignment 2

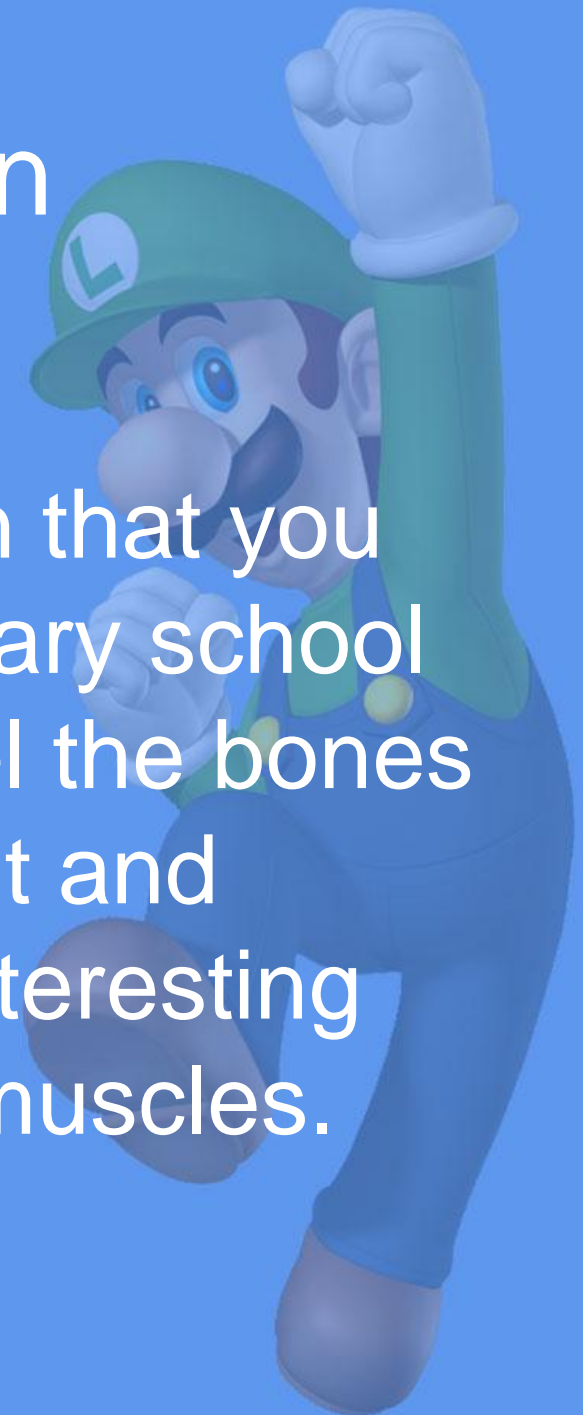

Investigate the non-cosmetic side of plastic surgery. Choose a procedure that make a significant difference to a child or adult who has congenital deformities, or acquired medical problems arising from bicycle, motorcycle, or any other accidents/unexpected injuries.

# Bone Donation

## Assignment

Make a poster of a Skeleton that you would use to teach elementary school children about bones. Label the bones you think are most important and include in your poster ten interesting facts about our bones and muscles.

# Cornea Donations

Create a poster that would encourage people to donate their cornea's after death.

Plain piece of white paper will be big enough
